

## New Hampshire Oral Health Coalition

### CHARTING THE COURSE: DEVELOPING THE ROADMAP TO ADVANCE ORAL HEALTH IN NEW HAMPSHIRE

The NH Oral Health Coalition is planning meetings throughout the state to introduce the **2015 NH Oral Health Plan** and the **NH Oral Health Program Five-year Communication Plan**. Participants will review the priorities, objectives, and strategies outlined in both Plans, incorporating some results from the NH Oral Health Baseline Survey. Participants will be asked to discuss their current oral health projects. Information gathered will be used to provide a timeline for statewide oral health advancement.

Participants will review the *2015 NH Oral Health Plan* along with the *NH Oral Health Program Five-year Communication Plan*. We have also provided a link to the *2015 NH Oral Health Data* which will provide updated insights to the Oral Health Plan.
